You can order the *1993 Worldwide Pirate Radio Logbook* now via PO Box 109, BRS, PA 17214 for $9 + $2 (Shipping & Handling & taxes). That's $1 off of retail price for PiPa & ACE members. The logbook covers the trends of pirate radio in North America, Europe, and Oceana, and has logs of all known broadcasts, sorted by station, chronologically, and by frequency. Also available is George Zeller's *1993 Pirate Radio Directory*. As usual, *The Pirate Radio Directory* is an in-depth directory to the different stations that were on in North America over the past year. If you order both books at the same time, the cost is only $17 + $2 s&h (save $5 off cover price & postage costs). We expect to have these out by late January or early February.

Stn nx: The Fox is giving out a free WRTH to the best comedy material submitted on tape. How's that for a great contest? Is now using NY, BRS, *and* ON adds...rumor has it that Bill Lewis of Live Wire R. is looking for some relays. Not sure of details, maybe for trade?...

Dline for #91: Send logs out no later than 2/1/93 (back on a 2-week sked)

For Sale: Swan 350 xcvr. 300w (approx). Includes power supply & matching speaker. Exc. condx! $300. Johnson Viking Adventurer w/new 807 $50 Write or call c/o AY @BRS add.

(2) RT-66 mobile military transceivers. 20-27 MHz FM w/1 power supply, mounting base, & manual. Excellent/mint physical condx. Korean War-era. $125. Write or call AY @BRS add.

For Sale MFJ 972 Dual SSB/CW filter w/manual & power pack $75 + $5 S&H. JTA, RD#1 Box 15A, Belfast NY 14711 or (716) 365-8870 ncc.

You can order the *1993 Worldwide Pirate Radio Logbook* now via PO Box 109, BRS, PA 17214 for $9 + $2 (Shipping & Handling & taxes). That's $1 off of retail price for PiPa & ACE members. The logbook covers the trends of pirate radio in North America, Europe, and Oceana, and has logs of all known broadcasts, sorted by station, chronologically, and by frequency. Also available is George Zeller's *1993 Pirate Radio Directory*. As usual, *The Pirate Radio Directory* is an in-depth directory to the different stations that were on in North America over the past year. If you order both books at the same time, the cost is only $17 + $2 s&h (save $5 off cover price & postage costs). We expect to have these out by early February.

New notes on using BRS add: My only limit is: I don't forward pornography, alcohol, tobacco, drugs (prescribed or not) because of potential legal problems (it's illegal to send most of this stuff anyway) and personal beliefs. If you wanna send some op "The Gay Blade" "40-D" or whatever, send them the $ & the address & they can order it. Or send'em the $$ for a 6-pack or whatever.

Stn info: P.Burbules hrd hams tlking abt WXMN 105.3 relay on 6250 kHz *(see #89)*. The op apparently was busted. He sez "..from what I understood, the guy was relaying this to listen to that FM station in the house & the xmtr was out in the shack, away from the house. His QTH was Elizabeth City, NC." This stn was rpted by many DXers for hours at a time in this freq range...JTA sez "rpts for JRI must be accompanied w/$1 US, not stamps or SASEs. These rpts get uploaded to ANARC BBS; they are not remailed"..via W.Cargill "If any stn wants to test to Europe on 21 MHz, try 21780 kHz SSB @1700 UTC. It'd help alot if they'd publicize it via PiPa or direct to me"

You can order the *1993 Worldwide Pirate Radio Logbook* now via PO Box 109, BRS, PA 17214 for $9 + $2 (Shipping & Handling & taxes). That's $1 off of retail price for PiPa & ACE members. The logbook covers the trends of pirate radio in North America, Europe, and Oceana, and has logs of all known broadcasts, sorted by station, chronologically, and by frequency. Also available is George Zeller's *1993 Pirate Radio Directory*. As usual, *The Pirate Radio Directory* is an in-depth directory to the different stations that were on in North America over the past year. If you order both books at the same time, the cost is only $17 + $2 s&h (save $5 off cover price & postage costs). We expect to have these out by mid-to-late February.

You can order the *1993 Worldwide Pirate Radio Logbook* now via PO Box 109, BRS, PA 17214 for $9 + $2 (Shipping & Handling & taxes). That's $1 off of retail price for PiPa & ACE members. The logbook covers the trends of pirate radio in North America, Europe, and Oceana, and has logs of all known broadcasts, sorted by station, chronologically, and by frequency. Also available is George Zeller's *1993 Pirate Radio Directory*. As usual, *The Pirate Radio Directory* is an in-depth directory to the different stations that were on in North America over the past year. If you order both books at the same time, the cost is only $17 + $2 s&h (save $5 off cover price & postage costs). The backlog of orders are being filled. Hopefully, The Diectory'll be done soon & everything'll be sent out!

Pirate radio on Cable TV? Uncle Salty of Monotony & I (& others?) have been scheduled to be interviewed on The Jane Pratt Show on Wednesday, 3/31 on The LifeTime Network. The show runs 5-6 pm EST, so I guess it'll be aired that day? Other people on the show include a woman who keeps a video diary of herself & a guy who has a "Brady Bunch" newsletter (!), so I have a feeling it'll be more silly than informative! But I do hope to get some people interested in pirates!

Thanx for letters, comments, etc abt everything. I hafta really apologize abt not being able to write. Between the writing, working o/t house, PiPa, job, 10-month son, etc, I haven't been able to stay in contact. I'm not whining; I'm just trying to say that I really value yer ltrs & logs & I'm not trying to blow ya off by not writing!

WWCR burns up! Yup, that was the nx de Tom Sundstrum via Genie computer net. I dunno tons yet, but all 3 SW xmtrs burned & the sister AM outlet burned, too. Also, all studios, equipment & documentation de the stn burned up. Initial plans are to return w/borrowed equipment in mobile home studios. On the negative side, *World of Radio & Radio Techniques* will be hurting. On the positive side, 7435 kHz is now open for use as a pirate freq!

Union City R Thanx: I got a call from Mark Taylor not long ago & he wanted me to let folks know that UCR was swamped w/rpts for their Valentines Day bdcsts. The wknd drew somewhere over 50 rpts, but I'm not sure exactly how many. Thus, Mark thanx every1 who wrote in & apologizes for not being able to write a personal ltr to every1 (as in the past). You can order the *1993 Worldwide Pirate Radio Logbook* now via PO Box 109, BRS, PA 17214 for $9 + $2 (Shipping & Handling & taxes). That's $1 off of retail price for PiPa & ACE members. The logbook covers the trends of pirate radio in North America, Europe, and Oceana, and has logs of all known broadcasts, sorted by station, chronologically, and by frequency. Also available is George Zeller's *1993 Pirate Radio Directory*. As usual, *The Pirate Radio Directory* is an in-depth directory to the different stations that were on in North America over the past year. If you order both books at the same time, the cost is only $17 + $2 s&h (save $5 off cover price & postage costs). The Directory is now sked to be out in May.

Wondered what happened to FCC vs me? Many of you already know this, but I've been forgetting to mention this to ya'll, so here goes. In Dec, I rxd a bill for $17,500 w/a threat to go to a collection agency. Rather than spend a ton on the FCC or get a terrible credit record, I paid a ton to a bdcst lawyer. He filed against the FCC. In Jan, I rxd another FCC bill w/threats abt civil court. I figured "fine, I don't have any $ for'em to get anymore; they'll just look stupid in court." 2 ds later I rxd another FCC ltr: "Pse ignore the dunning ltr of Jan —. It was sent as a result of an administrative error. Pse accept our apologies for any incoveniences this may have caused you." Ahem. Well...I guess that means that everything is over & they'll stop harassing me? I guess we'll see. I'm happy that it's over, but on the whole, the experience was a real pain.

Issue #100

I'm considering making issue #100 of *Pirate Pages* special. You mite know abt the success of "zines" (mini low-budget magazines). I'm thinking abt making #100 a real zine--maybe 20 or 30 8.5 X 11 pages with ads, interview, stories, how to pirate, & "stuff." With my time contraints & the cost to do something like this, I dunno if I can pull it off. But...I'd like to try if at all possible & by keeping costs down (hopefully, not increasing'em at all). I need suggestions, ideas, questions, articles, info sheets, interviews, ads, etc!!! Write or call me ASAP!

Issue #100

m considering making issue #100 of *Pirate Pages* special. You mite know abt the success of zines" (mini low-budget magazines). I'm thinking abt making #100 a real zine--maybe 20 or 30 8.5 11 pages with ads, interview, stories, how to pirate, & "stuff." With my time contraints & the cost o do something like this, I dunno if I can pull it off. But...I'd like to try if at all possible & by eeping costs down (hopefully, not increasing'em at all). I need suggestions, ideas, questions, rticles, info sheets, interviews, ads, etc!! Write or call me ASAP! (717) 263-6109

JPDATE ON #100: I barely heard from anyone abt this (let alone got anything). I don't think I an pull this off for #100 (but I'm still planning to try something), so I'm considering doing the ine later in the year (called "a supplement to #100," but out later anyway). I NEED INFO, NTERVIEWS, & MATERIAL ANYWAY!! If yer a pirate, it's good publicity fer yerself!

PiPa HQ update: The *Pirate R. Dir* was sent to Tiare last week, so they shud be back & ready to send out real soon!! I'm beginning to catch up on everything, so I mite soon get some sleep & a real life!...Now that this is done, *CSIC* t-shirts are the next priority. Soon, I hope? Thanx to every1 who wrote in & wished me luck w/all o/t FCC stuff. The support's been really helpful--I even put some o/t comments around the edges of my computer monitor. Speaking of 'puters, I got a new laptop 286 (quite cheap) from Computers For Less in CA. As a result, many of #98 are being mailed on 5/20 (a day or 2 faster than normal)! Hope this will improve speed of PiPas & maybe I'll get into ANARC BBS occasionally...

Issue #100

I'm considering making issue #100 of *Pirate Pages* special. *UPDATE ON #100:* I've now heard from a few people abt this. I've got an interview from NAPRS & an informational piece abt CRSM. I don't think I can pull this off for #100 (but I'm still planning to try something), so I'm considering doing the zine later in the year (called "a supplement to #100," but out later anyway). I STILL NEED INFO, INTERVIEWS, & MATERIAL ANYWAY!! Try not to be too general or awkward w/answers, etc. Some ideas for pieces, etc are things you like/dislike about pirating, listener reports, setting up AM/FM local pirates & interesting stories there--What ever strikes your fancy!. If yer a pirate, it's good publicity fer yerself!

As a bunch've people've already lemme know, VOA is now on 7415 kHz via Botswana xmtrs. This is only for abt 2 hrs, but it won't be long til they block in the rest o/t time. PLAN TO CHANGE FREQS! George Zeller suggests 6885 & 7460 kHz as new pirate channels. CSIC's been using 6800-6900, 9900, & 15050 kHz. JTA suggests freq ranges & not lumping up on 1 channel. Personally, I think svrl channels are the way to go. 7460 might be a gd freq–ham transceivers are so common that a freq within the range of a 40m ham VFO are important so that alotta people can use the same freq. The problem w/9900 kHz is that almost no one is presently capable of operating there. 15050 kHz is an old standby that needs to be used more! The big message is: start planning to change freqs!

If you have any probs w/PiPa or maildrop svc, please let me know & I'll try to straighten things out. I recently got wind of a complaint second-hand abt my 'drop & I occasionally hear stuff abt other drops, etc. In the past, I've even had 1 stn who consistently thanked me for good service, suddenly drop the BRS add & cut me out of all stn info "cuz it wasn't fast enuf." I do this stuff cuz I want to help out stns & SWLs, so people's reactions, friendships, etc mean everything to me. Believe me, this stuff is a $-losing "labor of love." Rather than have people hold a grudge against me for whatever reason, let me know what I have or haven't done & I'll try to rectify the situation. Thanks.

Check out all of the activity around 7460-7470 kHz! With WEED, R.Airplane, & NAPRS testing in the area, it should be getting pretty interesting! Phil Burbules did mention that he thought that Kol Israel ran on 7465 kHz in the Winter. Are they still here annually?

HQ nx: Things @PiPa HQ are veery busy! We're in the final stages of remodeling our house & trying to sell it before the interest rates climb back to infinity. I've done an AWFUL lot of painting, wallpapering, tile laying, sanding & spacking over the past few months! I'm also doing an antenna book for TAB/McGraw-Hill that needs to be finished before the end o/t year. No, I haven't cancelled "Hands On Pirate R," but it's been put o/t backburner till '94 (it's abt 1/2 or 2/3 written). So, the next deadline'll be 3 weeks from this one (as opposed to the normal 2 week gap).

Hallo notes: Tons of stuff on, but like last year, the prop was spotty & some stns just weren't audible. In fact, every stn that I had a sked for was inaudible here! It was hard to believe just how many stations were heard...I thot it was gd, but not THAT gt until I saw the logs roll in...seems like everyone hrd a few stns that no one else hrd! I lost a few lines (1 or 2) out of this PiPa via computer disk errors when I was almost done!! Scarey, but true (appro for Hallo PiPa). So, sorry if there's a glitch in the WLIS logs & in RBCN..This PiPa shud make for gd reading. I spent an awful lotta work on it & I hope ya like it, too.

Low turnout this time. 41m is REALLY skipping after dark. It's great for covering large distances. However, stations in the East will skip most of the audience. If ya want a local audience (within 500 miles), use 41m during daylite (afternoon or morning), or drop the freq down to 3400-3500 kHz for nite time.

I am developing a teaching unit that introduces SW in elementary school as an exciting, hands-on listening center that integrates media studies w/other subjects. I'd like to hear from you if you are or know of a teacher who uses SW i/t classroom. My interest is to establish an int'l net teachers who us SW for teaching abt media studies, global perspectives, world geography, social studies & other subject areas.
